Mr. Iordan Hristov

Biomonitoring, Ltd

Boris Hristov Street 2A

Sofia 1000

Bulgaria

Dear Mr. Hristov,

The Friends of Bulgarian Society for Protection of Birds wishes to thank you for your help on the Avi-Fauna Biodiversity Project for S.E. Bulgaria. Your work on this vital project will help further study for both ornithological researchers and birders alike in a region of Bulgaria that has lacked comprehensive studies.

The scope of your work is to promote Sinemoretz and the Strandja Region as a birding destination year round by; (1) **Collecting existing information** about the area of Sinemoretz, compile a comprehensive checklist of birds to be seen around the area; (2) **Field data collection:** Focusing on a 40 kilometer radius around Sinemoretz covering breeding, migration and wintering season which will ensure registration of a great variety of species that will be attractive to potential birders; (3) **Bird feeders and nest boxes installation:** The main goal of the nest boxes is to support the breeding of rare species such as Semi-collated flycatcher ; (4) **Objectives:** Conduct an inventory of the birds in the area of Sinemoretz and promote the potential of the area for birding destination in addition to its value for summertime resort; (5) with the **Expected result** of increasing awareness of S.E. Strandja as a birding attraction for both the amateur birder and researchers alike.

We sincerely appreciate your all you help and will highly recommend your professional services to any organization looking for professionalism in the field.

The Friends of Bulgarian Society for Protection of Birds is a 501(c)(3) Public Charity so your efforts and research during this year-long project will be put to good use. Our tax-exempt number is 27-3163891.
